# Boost 2 Drive = EV Charging solution

# Boost 2 Drive = EV Charging solution

- Total containerized solution for charging electric vehicles :
  - 10 AC charging stations
  - Solar panels (connected to the AC out of the Hercules)
  - Air conditioner
  - Fire extinguishing system
  - ...
- New Hercules system :
  - 8 Hercules modules
  - Inview X (no more catena)
  - NARADA Battery up to 3 x 75 kWh
- Customization and scripting thanks to the use of Inview

# Main advantages of the Solution

- Electricity bill optimization
  - Use of energy when it is “cheapest”
- AC out recycling
  - Grid forming : if you lose the grid, your solar inverters continue to operate
  - In case of overproduction of solar energy, we can charge the batteries
- Grid interactive
- Modular system
  - Up to over 200 kWh of AC charging capacity
- High flexibility
  - Many added functionalities thanks to the customization ability of Inview (PMS, time management ...)

Thank you  
for your attention
